

ASEAN shopping mall uses solar-powered container low-pressure type

Overview

These screens use integrated photovoltaic (PV) panels to generate their own energy, which is then stored in batteries or capacitors to power the LEDs and other components of the display, such as controllers, sensors or speakers, making them self-sustaining and reducing dependence on.

Article Content

Zambian shopping mall uses mobile energy storage container low

We will show how the shopping mall can support the transition from fossil fuel to low carbon generation, through the combination of (i) retrofitting solutions to decrease the energy ...

Why ASEAN's new Digital Economy Framework Agreement is a game

The ASEAN Digital Economy Framework Agreement (DEFA) is a new strategic roadmap for the region to address the complexities and opportunities of the digital economy. The world's first

6 questions for ASEAN Secretary General Kao Kim Hourn
