SriLankan Cargo Globally Recognised for Battery Safety

The certification is awarded only after a thorough audit and confirms that SriLankan Cargo meets the highest international standards for the handling and transport of lithium and sodium

About SRI International: History, Leadership, and Values

SRI is a leading American nonprofit research institute creating some of the world's most important innovations.

Renewaa | Lithium Battery Solutions, Solar Power & EV Battery

Sri Lanka's trusted provider of custom lithium battery packs, EV battery repair, E-bike battery supply, forklift battery restoration, and solar power systems (on-grid, off-grid, hybrid). Specialized in Nissan

Our people

SRI is a leading American nonprofit research institute that's created some of the world's most important innovations. But we wouldn't be where we are without our people. Learn more about us — and how

The SRI research behind today's surgical robotics

Intuitive's da Vinci surgical system was born at SRI, which continues to advance teleoperation technologies.

Research

SRI's Advanced Technology and Systems division is known for work in intelligence, surveillance, and reconnaissance. We're at the leading edge of human-machine interaction, sensing,

2026 Electric Vehicle (EV) Regulations and Battery Disposal Laws in

Under the new law, the battery belongs to its entire lifecycle, not just the vehicle. Adhering to these regulations protects both your wallet and our environment.

SriLankan Cargo secures IATA lithium battery certification

"This certification marks a significant milestone for SriLankan Cargo, highlighting our ability to safely handle lithium and sodium-ion battery shipments, as well as battery-powered

SRI International

SRI International, originally the Stanford Research Institute (SRI), is a nonprofit scientific research institute and organization headquartered in Menlo Park, California, United States. It was established

Towards Commercializing the "Made in Sri Lanka"

Over the last 30 years, the LIB has come a long way with various improvements to make it more compact and safe while simultaneously

Yadea Battery Secrets: Avoid Disaster & Double Your Range in Sri

Yadea, like many electric scooter manufacturers, primarily uses two types of battery technologies: Lead-Acid and Lithium-ion. Each has its own characteristics, pros, and cons, which are especially

Artificial Intelligence & Machine Learning

Today, AI technology — and the creation of new AI technology — are core to the research of many groups across SRI. Our researchers collaborate to build systems that sense, model, and

SRI Services, Inc.

Whether you're a seasoned or novice property investor, SRI helps streamline each step, from finding properties, understanding foreclosure sales, and assisting you through the auction and purchase

SriLankan Cargo earn IATA Lithium Battery Certification

It has become South Asia's first airline cargo division to get certification, recognising its excellence in safely handling all cargo types,

Are Lithium Batteries Safe to Use? Myths vs. Facts

Rechargeable lithium batteries have become an essential part of modern life, powering everything from portable electronics to solar energy

Analyzing Viral Claims about E-Bike Battery Explosions

The footage was viral among WhatsApp users in Sri Lanka as well and shows the horrific moment a lithium battery blew up in a man's face in a lift,
