

Crane for wind power generation

Overview

This product is an ultra-heavy-duty intelligent engineering crane specifically designed for onshore wind turbine installation, integrating three core capabilities: extremely high working altitude, precise wind-resistant load stabilization, and rapid self-assembly/disassembly.

Power Generation Cranes

Whether you need to move wind turbine blades, reactors, or boilers for burning fossil fuels, Ace World Companies cranes have the load capacity and reach to

How to find a container image tag/label from its hash

Note that skopeo is querying the /v2 endpoint, running a manifest get, pulling the config blob, and running a tag listing, for each inspect. While crane digest and regctl image digest each do

How to push a tar archive to private docker registry?

The three tools I know of for working with registries without a docker engine are crane from Google, skopeo from RedHat, and regclient from myself. The workflow that's needed is to

MoveByCrane: Move agent by crane to another agent

I want that a crane moves an agent (container) to another agent (truck). Both are two types of agents. In the MoveByCrane block exists the option to choose "Destination is" to "Agent". My

Docker: Exporting Image for Multiple Architectures

How can I export/save an image with support for multiple different architectures when I docker load it? Ideally, I'd be able to docker load a single .tar file on a machine of any supported

Industrial Cranes for Wind Turbine Applications

Konecranes provides industrial crane solutions for wind turbine applications, supporting efficient installation, maintenance, and heavy-load handling.

determine docker entrypoint of compressed/ flattened image

crane flatten

sha256:e78d228bddb78d9e26cebdbf17f3b0eab48078237f07d5b3e643d1b5658db5f crane seems

Crawler cranes at Wind Energy On

This is where our LR crawler cranes come in handy, at onshore installations or mountainous areas, flat lands or even offshore sites. In our range of crawler cranes there is a model for every task in the

anylogic

I tried to release it like this 1, it works, but I want to implement dynamic change of parameters not of the storage, but of the cell 2. Want to implement the following logic: checking the

How to get a list of images on docker registry v2

This threads dates back a long time, the most recent tools that one should consider are skopeo and crane. skopeo supports signing and has many other features, while crane is a bit more

Copy docker image between repositories

I have 2 private docker repositories. Is any way how can I copy one image from one repository to the second one?

Loading or Pushing Multiplatform OCI Image Tarball

EDIT: Docker engine still does not seem to support loading an OCI image tarball (if it's not a Docker-compatible tarball) to the memory. However, several tools, such as regclient, oras, skopeo

Quality Crane Solutions for Wind Turbines

ALL Crane provides tailored crane solutions and lift planning for the wind energy industry. Rent or buy the cranes you need for your turbines today.

Creating Rope Physics for Unity

There is an example on the Unity Wiki of creating 3d Physics based ropes. This might take a bit of configuration to work how you need it too. There is an Asset on the Asset store that costs

Installation Crane

The LT1500 Crane installs wind turbines with hub height up to 250m and component weight up to 120ton, enabling smaller mobilization and pad area as well as a simplified installation process.
