

## How to face the sun with photovoltaic panels

### Overview

South-facing solar panel systems almost always generate the most electricity, but east-west roofs can work well for solar, too. The direction is more important than the angle. Angle is rarely a make-or-break factor, and most roof tilts will work fine—though there are some.

## Article Content

Solved: How do you modify a Split Face

Hello, I've been using the Split face tool (looking like a little tv screen) to add some different materials to some part of the ceiling. Now I want to edit that shape because the project

Best home solar panel positioning tips for 2026

Knowing how to position DIY solar panels properly ensures maximum sunlight exposure, system efficiency, and long-term value. This comprehensive

Is there an easy way to find the centre/centroid of a face?

Make an offset plane from the face and choose 0 as the offset. The origin of any sketch created on that plane will be the centroid of the face. You can drop a sketch point there, and if

Face selection not selecting the faces that I want

I'm totally new to this and can't find a solution anywhere about this problem. I'm trying to select faces however it will not select the faces that I want.

What's the Best Angle for Solar Panels? | EnergySage

Below, we'll get into the finer details of the ideal direction and angle for solar panels, how it varies depending on where you live, and what it takes to

What's the Best Angle for Solar Panels to Get

Learn how to calculate the best tilt angle for home solar panels in 2026. Includes seasonal adjustments, PVWatts guidance and energy

Is there a way to deselect edges from a face selection in chamfer ...

I'm wanting to face select both sides of this part to chamfer everything inside it, and deselect all the countersunk holes so it doesn't try to chamfer them again. Is there a way to do this or

Solar Panel Angle Calculator

Our solar panel angle calculator helps take the guesswork out of panel positioning, suggesting panel tilt angles based on your location's latitude and your

Solar Panel Best Angle | Tilt & Orientation Guide 2025

In this guide, we'll break down the science behind the best solar panel angle, explain how to calculate it based on latitude, show seasonal

Solved: Cannot get replace face to work

I get that "face for knurled grip" is one of them, but is that the "source face" or the "target face"? A quick explanation of how Replace Face works might help understand when it succeeds and

How to create a face from vertices? (Very beginner question)

I'm new to 3ds max as of today. I need to connect one side of this mesh to the other. How can I select vertices and create faces from them? Like this picture... Thanks for any and all help!

Family Creation (Face Based versus Wall Based)

The orientation in a face based family is based on the host, so if you place the family on a wall in the project then the plan presentation set in the family is the front elevation in the project. It

Sun Direction Maps: Your Guide to Optimal Solar Panel

Sun direction maps are essential for optimal solar panel placement. Understanding the sun's path helps you find the best angles and orientations for

Solar Panel Direction & Orientation: 2025 Complete Guide

Discover the optimal direction and angle for solar panels to maximize energy output. Complete guide with calculations, tools, and location-specific

Solar Panel Angle Calculator by Zip Code: best Tilt

During summer, solar panels will not be tilted perpendicular to the sun, but during winter the panels will be oriented perpendicular to the sun for a

Is there any way through iLogic to select a part face and trim/delete ...

I am looking for iLogic that would ideally be ran from the assembly edit environment and allow me to choose a face (maybe in the active sketch?) and then delete and/or trim all lines or

How to align an object to a face of another object?

Hello! I have the following problem: I would like to align an object (the hemisphere in the figure) on top of a face of another object (the selected face in the figure). I tried with Align and Snap

midsurfaces Edge & Face IDs changing/disappearing.

Eventually I may discover that the mesh has disappeared from 1 or more faces. When investigating the midsurface command for that surface I will see that the midsurface was applied to
