

Zinc battery energy storage in Australia

Overview

South Australia Flinders University researchers, in collaboration with Griffith University, have published findings into the potential of aqueous zinc-ion batteries as a more sustainable energy storage technology alternative to lithium-ion batteries.

Article Content

First industrial product for Gelion Endure ...

Dec 6, 2022 · For over 35 years in Australia, Battery Energy Power Solutions have proudly designed, developed, and delivered premier energy storage ...

Nature's Battery Blueprint: How Zinc Storage Systems Mirror ...

Jul 20, 2025 · Unlike traditional batteries, zinc-based storage systems offer remarkable stability in extreme temperatures, making them ideal for Australia's harsh climate – from the scorching ...

Flow Batteries: The Next Big Leap in Australia's Renewable Storage

Feb 7, 2025 · Flow batteries aren't the only innovation on the horizon. ☐☐ Iron Flow Batteries – A Queensland company, ESI Asia Pacific, is set to manufacture iron-based flow batteries in ...

Adelaide researchers boost zinc-iodine battery ...

Jun 18, 2025 · Researchers at the University of Adelaide have developed a new dry electrode fabrication strategy for aqueous zinc-iodine batteries they say ...

Safe and sustainable batteries made in Australia ...

Sep 8, 2021 · For over 30 years in Australia, Battery Energy Power Solutions have proudly designed, developed, and delivered premier energy storage solutions to exceed the needs of ...

University spin-out Gelion to make next-gen ...

Sep 10, 2021 · Gelion's batteries will mean manufacturing jobs in Sydney. Image: Inside the Gelion lab The global renewable-energy storage company, Gelion, ...

A major boost for clean energy storage: ...

Jan 3, 2024 · Researchers from UNSW have developed a cutting-edge and scalable solution to overcome the rechargeability challenges of aqueous ...

Korea Zinc, Hanwha Energy partner on battery storage ...

Mar 14, 2025 · Korea Zinc's Australian subsidiary, Ark Energy, and Hanwha Energy, considered a company of the third generation of Hanwha Group, have decided to collaborate on the battery ...

Zinc-bromide battery for stationary energy ...

Nov 3, 2021 · Australian startup Gelion is seeking to commercialize a non-flow zinc-bromide battery based on a stable gel replacing a flowing electrolyte. ...

Aqueous zinc-ion battery research advances ...

Sep 19, 2024 · South Australia Flinders University researchers, in collaboration with Griffith University, have published findings into aqueous zinc-ion batteries ...

Ark Energy inks deal with Hanwha to supply ...

Mar 13, 2025 · Ark Energy, the Australian subsidiary of Korea Zinc Company, has signed a supply agreement with Hanwha Energy for the battery energy ...

ACOLA | The role of energy storage in Australia's future ...

Feb 3, 2025 · As at 2018 when the ACOLA report was completed, energy storage was developing in a variety of forms, including batteries, thermal, hydrogen and pumped storage. The then ...

Korea Zinc and Hanwha Join Forces on Australian BESS Project

Nov 27, 2024 · Korea Zinc Inc., the world's largest lead and zinc smelter, announced on Tuesday that its Australian subsidiary, Ark Energy, has selected Hanwha Corp. as the preferred ...

Australian researchers achieve zinc-ion battery life ...

Jun 24, 2025 · Australian researchers are reporting a breakthrough with zinc-ion battery technology, developing a new method to significantly boost the structural stability of the ...

New battery technologies tested at regional WA ...

New battery technologies tested at regional WA microgrids On behalf of the Australian Government, the Australian Renewable Energy Agency (ARENA) has today announced \$2.85 ...

Ark Energy wins tender for world's largest 8 ...

Dec 20, 2023 · Ark Energy's 275 MW/2,200 MWh lithium-iron phosphate battery, to be built in the Australian state of New South Wales, has been announced ...

Technology

Its ingenious design extracts the highest performance yet from our proven Znyth™ zinc hybrid cathode technology, solving the limitations that other ...

Australia needs better ways of storing renewable ...

Jan 6, 2025 · As more and more solar and wind energy enters Australia's grid, we will need ways to store it for later. We can store electricity in several different ...

Battery Energy Storage System (BESS) Factsheet

Nov 26, 2024 · Image supplied by Neoen Australia. What is BESS? Basically a big battery (or rather a series of smaller ones)! Battery Energy Storage Systems (BESS) are installations that ...

New zinc-iodine battery retains 99.8% capacity after 500 cycles

Jun 13, 2025 · Researchers in Australia have built a battery that stops zinc dendrites and maintains 99.8 percent capacity after 500 cycles.

Battery Energy Storage System | Battery ...

There are seven major types of battery energy storage systems including Lithium Titanate, Lithium-ion, Lead-acid, Gel, Redox flow, Sodium Sulphur and Zinc ...

ARENA funds microgrid trials for sodium-sulfur ...

Mar 25, 2024 · The trial is aimed at assessing the suitability of sodium-sulfur (NAS) and zinc-bromine hybrid flow batteries to help integrate growing shares ...

Battery Storage: Australia's current climate

Aug 22, 2024 · Australia's current storage capacity is 3GW, this is inclusive of batteries, VPPs and pumped hydro. Current forecasts by AEMO show ...

UNSW engineers develop tech to prolong aqueous zinc battery ...

Jan 4, 2024 · A safe and affordable AZB technology will accelerate renewable energy integration, enable smart grid technologies for better management of energy distribution, load balancing, ...

South Australian zinc mine to be converted into ...

Feb 8, 2019 · ARENA has today announced \$6 million in funding to Hydrostor Australia Pty Ltd for Australia's first energy storage project using compressed air.

Redflow launches first flow battery for homes in ...

Mar 31, 2016 · Source: Redflow Australian battery developer Redflow has launched what is thought to be the first residential-level storage device to use ...

Next-gen Gelion batteries to be made in ...

5 days ago · Global renewable-energy storage innovator Gelion Technologies and Battery Energy Power Solutions have joined forces to manufacture and ...

Remote Microgrids in Australia Testing Long ...

Mar 29, 2024 · Horizon Power is the regional energy provider for Western Australia. The project aims to prove the technical viability of zinc bromine and ...

How Australian Communities Are ...

Apr 22, 2025 · In the sun-drenched landscapes of Australia, a revolution in community solar power is taking shape through the Zinc Collective - a ...

Australian zinc bromide batteries start rolling off ...

Sep 30, 2022 · A battery manufacturing facility capable of producing two megawatt-hours a year of Australia made “safe and durable” gel-based zinc ...

New battery technologies tested at regional WA ...

Mar 25, 2024 · Horizon Power, Western Australia's regional energy provider, will install and trial Redflow's zinc bromine flow battery (100 kW / 400 kWh) and ...

Nickel-zinc battery storage startup ZincFive raises US\$54 ...

Dec 7, 2022 · Then there are also companies using zinc in flow battery electrolytes, like Australia's Redflow, which has a zinc-bromine flow battery technology, and Chinese company ...

Energy storage assessment: Where are we now?

Jun 8, 2023 · Liquid air (LAES), zinc-bromine batteries (ZNBR), underground hydrogen and thermal energy storage systems are all being studied to meet ...

Remote Microgrids in Australia Testing Long ...

Mar 29, 2024 · The project aims to prove the technical viability of zinc bromine and sodium sulfur batteries in remote microgrids and is driven by a need to ...
